To establish a National Domestic Violence Prevention Action Plan to expand, intensify, and coordinate domestic violence prevention efforts among Federal, State, local, and Tribal government agencies and with other relevant stakeholders, and for other purposes.

IN THE HOUSE OF REPRESENTATIVES

OCTOBER 27, 2021

Ms. WEXTON (for herself, Mr. JOYCE of Ohio, Mr. CLEAVER, Mr. VARGAS, Mr. GREEN of Texas, Ms. MANNING, Ms. DEAN, Mrs. HAYES, Ms. CLARKE of New York, Ms. ADAMS, and Mr. MFUME) introduced the following bill; which was referred to the Committee on Education and Labor

A BILL

To establish a National Domestic Violence Prevention Action Plan to expand, intensify, and coordinate domestic violence prevention efforts among Federal, State, local, and Tribal government agencies and with other relevant stakeholders, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-
2 tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “National Domestic Vi-
5 lence Prevention Action Plan Act of 2021”.

1 **SEC. 2. FINDINGS.**

2 Congress finds the following:

3 (1) Domestic violence is a serious public health
4 problem and more than 10 million individuals expe-
5 rience domestic violence in the United States each
6 year.

7 (2) According to the National Intimate Partner
8 and Sexual Violence Survey in the United States—

9 (A) more than 1 in 4 women and nearly 1
10 in 10 men will experience contact sexual vio-
11 lence, physical violence, or stalking by an inti-
12 mate partner and experience an intimate part-
13 ner violence related impact in their lifetime; and

14 (B) approximately 1 in 4 women and 1 in
15 7 men experience severe physical violence by an
16 intimate partner in their lifetime.

17 (3) More than half of female homicides are con-
18 nected to intimate partner violence and in a domes-
19 tic violence situation the presence of a gun increases
20 the risk of homicide by 500 percent.

21 (4) While domestic violence can affect anyone,
22 research indicates that communities of color, individ-
23 uals with disabilities, LGBTQ+ individuals, and
24 other marginalized communities can be dispropor-
25 tionately impacted.

1 (5) Domestic violence leads to the loss of nearly
2 8 million days of work each year the lifetime eco-
3 nomic burden on victims is \$3.6 trillion, in which the
4 government pays approximately \$1.3 trillion (37 per-
5 cent) of the burden.

6 (6) The United Nations has urged countries to
7 adopt national action plans to combat gender-based
8 violence and violence against women, including do-
9 mestic violence, and approximately 50 countries, in-
10 cluding Canada, the United Kingdom, Australia,
11 Germany, Spain, and Ireland, have adopted such
12 plans.

13 (7) The United States does not have a national
14 plan of action on domestic violence or gender-based
15 violence, making it a global outlier.

16 (8) While the Violence Against Women Act
17 (VAWA) enacted in 1984 and the Family Violence
18 Prevention and Services Act (FVPSA) enacted in
19 1995 are the United States landmark pieces of do-
20 mestic violence legislation and have many of the
21 hallmarks of a national action plan on domestic vio-
22 lence prevention, from the public health and the en-
23 forcement perspectives, respectively, the United
24 States does not have a whole-of-government, goal-
25 oriented, community-informed, forward-looking na-

1 tional plan of action for domestic violence preven-
2 tion.

3 (9) In 1995, the Office on Violence Against
4 Women (OVW) was created within the Department
5 of Justice (DOJ) to administer grants authorized
6 under VAWA and offer financial and technical as-
7 sistance to communities across the United States
8 that are working to develop and maintain programs,
9 policies, and practices geared towards responding to
10 domestic violence, dating violence, sexual assault,
11 and stalking.

12 (10) In 2002, OVW was codified through Title
13 IV of the 21st Century Department of Justice Ap-
14 propriations Act (Public Law 107–273).

15 (11) The FVPSA is the primary Federal re-
16 source dedicated to the provision of domestic vio-
17 lence shelters, supportive services, and related pro-
18 gramming for victims of domestic/dating violence
19 and their dependents.

20 (12) The FVPSA Program administers State
21 and Territorial Formula Grants, Native American
22 Tribes Formula Grants, State and Territory Domes-
23 tic Violence Coalitions Grants, Discretionary Grants,
24 Specialized Services to Abused Parents and their
25 Children, Training and Technical Assistance Re-

1 source Centers Grants, and the National Domestic
2 Violence Hotline Grant. The FVPSA authorizes 4
3 major activities that:

4 (A) Assist States and Tribes in efforts to
5 prevent domestic violence and dating violence.

6 (B) Provide immediate shelter and sup-
7 portive services for victims of domestic violence
8 and their dependents.

9 (C) Provide for a National Domestic Vi-
10 lence Hotline.

11 (D) Provide for technical assistance and
12 training relating to domestic violence and do-
13 mestic violence programs to States, Tribes, pub-
14 lic agencies, community-based programs and
15 the public.

16 (13) Since 1996, the Centers for Disease Con-
17 trol and Prevention (CDC) has awarded DELTA
18 funding to State Domestic Violence Coalitions
19 (SDVCs) to coordinate specific prevention activities.

20 (14) Overall approximately 18 States have re-
21 ceived DELTA funding at some point since the pro-
22 grams creation. However, only nine States currently
23 benefit from this funding.

24 (15) According to the CDC, DELTA focuses on
25 implementing three strategies with the goal of ad-

1 dressing and decreasing community and societal
2 level risk, identifying factors in communities that
3 may lead to intimate partner violence and increasing
4 protective factors that prevent it by—
5 (A) engaging influential adults and peers;
6 (B) creating protective environments; and
7 (C) strengthening economic supports for
8 families.

9 (16) In 1993, the FVPSA established 4 na-
10 tional training and technical assistance resource cen-
11 ters to support, train, and assist domestic violence
12 shelters, community-based organizations, victim ad-
13 vocates, and other professionals in the provision of
14 safe housing and supportive services to domestic vio-
15 lence survivors and their dependents. These resource
16 centers include the National Resource Center on Do-
17 mestic Violence (NRCDV), the Health Resource
18 Center on Domestic Violence, the Resource Center
19 on Domestic Violence: Child Protection and Custody,
20 and the Battered Women's Justice Project (BWJP).
21 In later years, additional resource centers were es-
22 tablished to focus on culturally specific populations,
23 Tribes and sovereign nations, American Indian/Alas-
24 ka Natives, children exposed to domestic violence,
25 mental and behavioral health services, housing,

1 LGBTQ services, and other critical service intersections to meet the needs of survivors. With respect to
2 these resource centers:

4 (A) The purpose of these resource centers,
5 known collectively as the Domestic Violence Re-
6 source Network (DVRN), is to engage in indi-
7 vidual and collective strategic action to advance
8 public policy, institutional change, community
9 responses, and prevention initiatives that inte-
10 grate and respond to the diverse realities and
11 needs of survivors, their families, and their
12 communities.

(B) The individual advocacy efforts of DVRN members are informed by the wide range of expertise within the network and strengthened by opportunities for critical thinking and robust discussion of cross-cutting policy and practice issues.

19 (C) In 2021, the FVPSA provides funding
20 for two national resource centers, four special
21 issue resource centers, three culturally specific
22 resource centers, five emerging issue resource
23 centers, one statewide Alaska Native resource
24 center, and the National Domestic Violence
25 Hotline and StrongHearts Native Helpline.

(D) The National Indian Women's Resource Center (NIWRC) is dedicated to restoring sovereignty to Native nations and safeguarding Native survivors and families from domestic, sexual, and intersecting violence.

(E) The NRCDV believes that domestic violence is preventable. NRCDV builds the capacity of individuals, organizations, systems, and communities to strengthen and transform their efforts to end domestic violence through comprehensive technical assistance, training, resource development, and research.

(F) The Special Issue Resource Centers are national in scope and enhance domestic violence and dating violence intervention and prevention efforts in:

(i) Criminal and civil justice systems.

(ii) Child protective services and child
body

(iii) Health care systems.

(iv) Mental health systems.

The Culturally Specific Su

Resource Centers enhance intervention and prevention efforts for victims of domestic violence for members of racial and ethnic minority

1 groups, including: African American, Asian
2 American/Pacific Islander, and Latino/Latina.

3 (H) FVPSA's emerging issue resource cen-
4 ters expand the capacity of domestic violence
5 organizations, Tribes and Tribal organizations,
6 and other professionals to provide evidence in-
7 formed promising practices, policy changes, re-
8 sources, and research to ensure effective serv-
9 ices to victims of domestic violence and their
10 dependents at the intersections of housing, gen-
11 der identity and sexual orientation, organiza-
12 tional capacity building, and children's exposure
13 to trauma.

14 (I) The statewide Alaska Native Women's
15 Resource Center strengthens local Tribal gov-
16 ernments' responses through community orga-
17 nizing efforts to advocate for the safety of
18 women and children in their communities and
19 homes through the voices, languages, and
20 teachings of Tribes at statewide, national, and
21 international levels for life-saving changes need-
22 ed in laws, policies, and social norms.

23 (J) The national hotlines are vital services
24 designed to provide healthy relationship edu-
25 cation, tools, and support to help survivors of

1 domestic violence live their lives free of abuse—
2 24 hours a day, seven days a week, 365 days
3 a year, including a helpline for American Indians
4 and Alaska Natives, offering culturally ap-
5 propriate support and advocacy.

6 (17) Many Federal agencies respond to domes-
7 tic violence by providing formula-based and discre-
8 tionary grants to local, State, and Tribal govern-
9 ments, courts, nonprofits organizations, community-
10 based organizations, schools, institutions of higher
11 education, special-issue resource centers and State
12 and Tribal coalitions for the purpose of supporting
13 victims and holding perpetrators accountable for
14 their actions associated with domestic violence.
15 These Federal agencies include the following:

16 (A) The Department of Defense admin-
17 isters the congressionally mandated Family Ad-
18 vocacy Program (FAP) which is devoted to pro-
19 viding clinical assessment, supportive services,
20 and treatment in response to domestic violence,
21 as well as reporting domestic abuse in military
22 families annually to Congress.

23 (B) The Department of State supports nu-
24 merous programs that address domestic vio-
25 lence globally through its human rights and hu-

1 manitarian activities, including those housed in
2 the Office of Global Women's Issues that sup-
3 ports anti-gender-based violence (GBV) pro-
4 grams and promotes awareness.

5 (C) Through their agency-wide efforts to
6 address gender inequality and gender-based vio-
7 lence, the U.S. Agency for International Devel-
8 opment (USAID) supports programs that aim
9 to prevent and respond to domestic violence
10 globally through its work in development, global
11 health, and humanitarian assistance.

12 (D) The Indian Country Crimes Unit
13 (ICCU) at the Federal Bureau of Investigation
14 (FBI) is responsible for developing and imple-
15 menting strategies, programs, and policies to
16 address identified crimes problems in Indian
17 country, including but not limited to, initiatives
18 related to domestic violence and sex offenses,
19 program management, and support for the Safe
20 Trails Task Force.

21 (E) The Office of Justice Services at the
22 Bureau of Indian Affairs (BIA–OJS), the Fed-
23 eral Bureau of Investigation (FBI), and Tribal
24 governments share jurisdiction in handling

1 crimes, including domestic violence, on Tribal
2 lands.

3 (F) The FBI collects data on victim-of-
4 fender relationships, including through the Na-
5 tional-Incident Based Reporting System.

6 (G) The Department of Education admin-
7 isters the Student Support and Academic En-
8 richment Grant program, authorized under
9 Title IV–A of the Elementary and Secondary
10 Education Act, which provides formula grants
11 to State educational agencies and local edu-
12 cational agencies that may be used to support
13 violence prevention programs and activities.

14 (H) The Higher Education Act (HEA) re-
15 quires institutions of higher education (IHE) to
16 include in their annual security report (ASR) a
17 statement of policy regarding the IHE's pro-
18 grams to prevent domestic violence, dating vio-
19 lence, and other related crimes, and procedures
20 that the IHE will follow once an incident of do-
21 mestic or dating violence has been reported.

22 (I) The Department of Housing and Urban
23 Development (HUD), in conjunction with the
24 Department of Health and Human Services
25 (HHS) and the Department of Justice (DOJ),

1 funds housing programs for individuals and
2 families who are fleeing or attempting to flee
3 their home due to domestic violence, sexual as-
4 sault, or stalking, as well as oversees the Do-
5 mestic Violence Housing Technical Assistance
6 Consortium through the Safe Housing Partner-
7 ship that provides technical assistance to com-
8 munity providers on housing and domestic vio-
9 lence.

10 (J) U.S. Citizenship and Immigration
11 Services (USCIS) at the Department of Home-
12 land Security (DHS) accepts applications and
13 assist survivors of domestic violence in becom-
14 ing lawful permanent residents through VAWA
15 self-petitions.

16 (18) Survivors of domestic violence are affected
17 by the programs of all Federal agencies, even if
18 those agencies have not currently put into place spe-
19 cific programs to support survivors.

20 (19) Responses to domestic violence have fo-
21 cused, to date, primarily on intervention after the
22 problem has already been identified and harm has
23 occurred. However, there are prevention strategies
24 and prevention approaches from the public health
25 field that can serve as models for further develop-

1 ment of domestic violence prevention, such as a pub-
2 lic health campaign that identifies and addresses the
3 underlying causes of the issues.

4 (20) Domestic violence prevention should be ad-
5 dressed along a continuum of possible harm:

6 (A) Primary prevention to reduce the inci-
7 dence of domestic violence before it occurs.

8 (B) Secondary prevention to decrease the
9 prevalence of domestic violence after early signs
10 of such violence.

11 (C) Tertiary prevention to intervene once
12 domestic violence is already clearly evident and
13 causing harm.

14 (21) Early evaluations of existing prevention
15 programs show promise, but results are still prelimi-
16 nary and programs remain small, locally based, and
17 scattered throughout the United States.

18 (22) The United States needs a broadly based,
19 comprehensive prevention strategy that is supported
20 by sound research and evaluation, receives adequate
21 public backing, and is based on a policy of zero tol-
22 erance for domestic violence.

1 **SEC. 3. NATIONAL DOMESTIC VIOLENCE PREVENTION AC-**2 **TION PLAN STEERING COMMITTEE.**

20 and impact of any and all forms of domestic vio-
21 lence;

22 (9) increase the number and quality of profes-
